PARIS BEAUTY FACTORIES.

SPECIALISTS WHO GROW RICH BY MAKING PEMININE LOVELINESS. Skillful Treatment of the Hair-Any Desired Color Supplied Remoulding the Female Form Divine Complexions Made to Order

Corset Making as an Art. PARIS. April 14 -- If any woman comes to e days with the laudable determination hyercome her physical defects there is no earthly son why her ambition should not be gloriously realized. In Paris just now there is more feminine hearty created by science than by nature, more physical leveliness by direct application of remby health or inheritance, and the powers behind devoting their lives and their brains to the study

ciative Parisian audience, and the next day every one is talking of Mile, B,'s marvellous waist, or exquisite hair, or stunning shoulders. Talk of beauty artists who made Mile, B. famous, rushes

tions friseur in a back court three flights up bimself in the Bois de Boulogne in the most gorand now keeps her waist permanently at the 19 inch measure, has one of the finest studios ultivation of the waist on a big boulevard lectric appliance for restoring color to gray hair growing almost bald and gray himself from nage, while as to the cultivator of lovely the creator of supple beautiful leanness,

To begin with the coiffeurs. Their business s not only to arrange hair exquisitely but to guard gloss as well as a curliness without which no mplete. Just drop into the operating rooms one of the best of these artists and see him take stiff gray handful of short and what are called hadly bitten locks into his hands. The saddened ssessor of this uncompromising looking mass

been made he decides on a treatment. A remarkable application of coloring fluid through electric baths is what they now give in cases of premature grayness. The process is long and exciting and furthermore it is expensive. The head is washed and rubbed and steamed and then a tinted oil is worked into the open pores. Curiously enough a sweetly perfumed white oil gives a brown ione, a faint brown oil brings back a shining black gloss and then electricity is expected to do the rest, after the clipping, singeing and brushing with a hinge revolving, softly bristled wheel has been undergone.

any other agency. All day long women are coming in to have their heads brushed and the earlier the hour the greater the number of visitors.

Some women, like Lucy Gerard and Cleo de Merode, come direct from their baths and breakfasts, for it is against their principles and the order of their coiffeur to attempt even the simplest arrangement of their locks unaided. Coming in her delicate luxurious peignoir, over which a long dark cloak is worn through the street, the stage beauty drops into a deep armchair and an elegantly attired young woman takes out the shell pins and proceeds deliberately to comb the silken tresses with her fingers. Tangles are not rudely form from the mesh nor long precious strands uproted, but every knotted curl is patiently unraveled until the assistant's fingers run from scalp to 450 unimpeded. Then a wheel shaped brush, covered with long bristles as soft as camel's beit, is allowed to whirl over the head and down the white partings made by the assistant's index finger. This detaches and blows out every particle of dust and a little finger massage stirs the blood under the skim. After this, if it is the day for the ondule, steel tongs are brought forth and instead of heating the surface of the metal over a flame, hollow tongs filled with hot water are implied. The water supplies the requisite intensity of heat without running any day ger of soutching the hair, and besides actresses hundreds of well-cared for. Paristan fashionable women drop in during the day, slip into white slik peignors which is not only good for the hair but prevents the headaches, the nervous attacks and wear shamnon. to have their heads brushed and the earlier

re indeed, no matter what the conditions, he up to date hair dresser in Paris permit tunder his care to go into the tub. When an actives in the freecoed pariors, where obsards hang peignoirs of every tint in actin or linen that may please her taste, booked for a steaming. The hair is incased one hag of the thinnest rubber, one end of fits about the forchead, back of the neek ats. Steam is turned on and for nearly it rises into the locks, condenses on the scalp, steady drip, drip, goes on until a proper of cleanliness is reached. The drying is in in a trice with an electric brush. This word by thoroughly perfuming the tresses. d cleanliness is reached. The drying is to a trice with an electric brush. This wed by thoroughly perfuming the tresses, ess also accomplished by steam, and this treatment supplies to dry hair just the tegloss. After long and patient experiment a point of perfection has the drying of hair cently brought, that if a blonde or a gray to have a darker tint, one treatment every nuts is enough to hold the color bright and ainst all save salt water tests. Hed is the last difficult to fix, unless the process of any from the natural to the artificial color in a youth and carried on gradually. In ig from the natural to the artificial color in worth and carried on gradually. In awardays it is no uncommon sight to soft welve and fourteen going every week air dresser for the changing of their sober is black locks. Girls there are destined stage or for smart society and their amounters willingly undergo the trouble sense entailed in order to secure for their ets a feature so rare and so difficult of at-

dressers, however, great as is their influence, dessers, however, great as is their influence, more potent or advanced along the road utile manufacture of beauty than the corsets. Wonderfully shaped and supple bodies it to exquisitely cared for heads, and the gaf special corsets alone in Paris is a businessing to millions of dollars a year knows really how strong is the link that he dressmaker to the corset maker in this good course.

in in til the corset makers admit the pos-producing stays that will east the figure aculd requisite for the new form of skirt it. Three years ago a staymaker in rented the straight front corset with a satisfying the demands of Worth and ugues who had decided to move slowly the restoration of the Louis XV, and XVI.

compass and is even capable her of massaging and journaling elstith bags filled with finely shaved ice. a sheet her patient is first la con a ble with a gutter all around its edge, he rubber hose is turned on. It plays a circle and a steady spout first, from and then from that, and after a few is straying the thumping with ice filled is until the offending flesh does melt according to Hamlet's eloquently extre. After the spraying and thumping its ordered to run around the room, down, wrapped in a flannel robe, allows fifteen minutes and to eat a dry half a cup of hot, black coffee with a strastes like a delicious liqueur in it.

to sprout, first those around the neck come, then a good sharp elbow developes itself, and at last the hip measure begins to shrink. Hip flesh is the last to go, and this precedes the diminution of the waist girth. Rarely does a subject prove wholly resistant to the cold water treatment. Plain water, directed from a sufficient height through a hose, will do as much as faith, namely, move mountains, and it is therefore perfectly logical to agree that less water through a smaller hose directed at unstable human flesh, will break down fatty tissues and bring out the solid bone foundation.

through a hose, will do as much a disk, namely, being the special to agree that less water through a smaller look divide and unstable human book will be a smaller one divided and the special to agree that less water through a smaller look divided and the special to agree that less water through a smaller look divided and the special to agree the special state of t

FOR A REVOLUTION IN CHINA. Reformers Raising Millions to Be Spent in

Overthrowing the Empress Dowager. VANCOUVER, B. C., April 18.-Alex Cumyou, Foreign Secretary of the Chinese Reform Association, Canadian branch, is responsible for the statement that a revolution is imminent in

good church members are no longer considered good church members are no longer considered Baptists. The rules which caused the trouble prohibited the members from attending dances, card parties or theatres at any time of the year. This was too much for some, especially the younger element, and they refused to subscribe to the covenant as amended.

THE MERRY, MERRY MUSKI.

AN INSTITUTION IN CAIRO WHICH FASCINATES ALL TOURISTS.

If the Tourists Are Women, so Much the Better for the Muski and the Worse for Each Woman's Pocketbook-Characteristics of the Place-Rain in Cairo. CAIRO, March 31 -- If you want to find out

may be stated fight and the official costume next winter. The most exciting incident in a trip to figyly is being alternately yauked and boosted up the Great Pyramid by three husky Arabs. Next this comes bargaining in the bazaats. Very this comes bargaining in the bazaats. Very this of the dealers there are lat and there is a good reason for their leanness. You sook find a out, especially if you are buying beleros. The shops seem to go in pairs: one near the entrance to the lane, the other futher in The buyer is naturally supposed to be in ignorance of this partnership. She supposes that all the shopmen are deadly rivals. Also she knows, for the guide book fells her so, that she ought not to give more than one half or two thirds of the price first asked for anything. So when one of the oily Orientals asks her 35 shillings for a jacket, she feels sure that he is trying to curry favor with Mohamed by cheat-

the statement that a revolution is imminent in China. He says Chinamen have subscribed to the revolutionary fund so freely all over the world that there are many millions of dollars in the treasury and money is being spent freely in preparations to strike for the overthrow of the Empress Dowager and the salvation of China.

Long Ki Tin, who is a brother of Long Li Kei Chuen, upon whose head a price has been put by the Empress Dowager, is now in Victoria, B. C., organizing the reform association in British Columbia. The total amount subscribed in British Columbia is \$10,000. This sum was sent direct to headquarters in Japan.

Quit the Church Rather Than Not Dance.

From the Milwaukee Sentine!.

Green Bay, April 13.—As a result of the addition of several articles to the covenant of the Baptist Church here a number of well-known people who have hereatofore been considered good church members are no longer considered Baptists. The rules which caused the trouble probability of the members from attended to the deshilling place for the jackets shalls seen.

The scheme works well. The woman who

people who have heretofore been considered good church members are no longer considered haptists. The rules which caused the trouble prohibited the members from attending dances, eard narties or theatres at any time of the year. This was too much for some especially the younger element, and they refused to subscribe to the covenant as amended.

Good Corn Bread.

To the Editor of the Sun-Sir: Noticing the several letters in the Sun regarding recipes for corn bread, &c. I took the trouble to send to a friend of mine in Richmond, Va. for some of the genuine Southern water ground corn meal and received from him the inclosed letter, which I know will be of interest to your readers.

New York, April 19.

My Dear Sir: I have the pleasure to comply with your request of recent date I am shipping, per O D. line, twenty-five pounds fresh, water ground. Southern meal. Now, when I got your letter the first thing that popped into my head was the title of Bulwer's book. "What Will He Do With It?"

If you have a good negro cook the meal may be the means of adding to your regular diet a new pleasure; but in the absence of the aforesaid darkey the chances are they will put sugar in it—don't!

Besides the old fashioned pone there are corn muffins, corn cakes, hee cakes, corn dodgers, scratch

means of adding by your regular dorses in but in the absence of the adversal darkey the chances are they will put sugar in it—don't!

Besides the old fashioned pone there are corn muffers, corn cakes, hoe cakes, corn dodgers, scratch backs, and last and best of all comes the famous ash cake, really to enjoy which—well, go with me a-hunting.

Get up early and walk up hill and down until you are tired; then go with me to a cool spring under some big oak tree, and while we rest get the old negrow woman to sweep back the ashes; from the smooth hearthstone. With deft hands she mixes the mealshpest into a round cake, drops it on a hot rock. It is then covered with "red hot" ashes.

While the ash cake cooks she fixes a few slices of Virginia "midin," the savory odor from which greets you while you stretch on the ground. Your appetite increases 100 per cent.

Presently the ashes are taked away and out comes the cake piping hot. The ashes art then washed off thut being so hot the crust is dry again in a few min utest. Next are seraped off any charred crumbs—and how Itall reminds one of "home and mother," of the boyhood days down on the farm," days so bright, so happy, but gone, gone, gone.

TO THE EDITOR OF THE SUN—Sir: Can I help on the corn cake? It is interesting and the opin ions are not allo on the same line, and after fity yetar's trial one cannot help feeling that the Southerner's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of e's is the true conception, or comes nearest our of eyes is the five of the steps and then with brooms they swept the water out of this inclosures of the principal streets into les

SUCCESS IN LIFE; -- LONG LIFE.

COPYRIGHTED.

SUCCESS IN LIFE.

What you accomplish in life will depend as much, and possibly more, upon your Liver and Stomach than upon your Brains. Liver trouble and Dyspepsia prevent the accomplishment of many aims, induce early decline and may defeat your purposes in life. Whatever the capabilities may be, of persons subject to Headache, Dyspepsia, Neuralgia, Piles. Constipation, Malaria, frequent bilious attacks. Kidney disease, etc., it will be difficult for them to cope with those free from such ailmants. Sufferers should bear in mind that a ratenous appetite is no indication of a good digestion. A fact unprecedented and most gratifying to the originator of Wells' New Tonic Treatment, is that, in a wide range of application; in many different diseases, not a single case has yet been reported wherein the Treatment has failed. Milions are continually doctoring to no purpose. Whatever your disease may be, try this New Treatment and see if it doesn't fit your case exactly.

Your Weak Spot.

If at all times, or if just at THE time when the most nerve or the steadiest nerve is required, you are shaky, nervous and unreliable; if lacking robustness, force, recuperative power, aggressive snap and fire, Weils' New Tonic Treatment is what you want. In modern medicine this New Treatment is to disease what electricity is to light, power and locomotion. It maintains virillity in man, robustness in women and children. You may have a weak stomach, a bad liver, poor digestive force, or may be saturated with maiarial poison. Whatever your difficulty try this treatment. Without perfect digestion the blood is impoverished and the system poorly supported. You age prematurely, grow gray rapidly, are fretful, nervous, weak, irritable; you are

FAILING,

growing thin, or if fleshy, are weak and nervous. The kidneys are disturbed, there is an uneasy hurting in small of the back; headache, indigestion, a dormant or a too active, tritable liver; neuralgia; nervous weakness; heavy disturbed sleep; palpitation, social indifference; you are listless, indifferent, melancholy; energy and force is gone; in short, you feel mean! Miserable!! For these and many other distressing conditions, a single package of Wells' New Tonic Treatment and in many cases a few doses will be all that is needed for relief and cure. In the race of life, time, health, strength and vigor are all important, and you cannot afford to allow this New Treatment to go untried. Do not wait till you are completely worn out, try not wait till you are completely worn out, try it now. It is working wonders everywhere.

You Can't Live.

If you can digest you can eat, if you cannot eat you can't live. If you maintain your appetite, a good digestion and strong nerves, you can repair waste, can better repel and out-live disease or the consequences of over-work, exposure, or any wasting drains on the system. Stamina; flesh and muscle, and vigorous manhood is maintained only by the perfect digestion of healthy food. A good appetite can be attained in a few doses of Wells' New Tonic Treatment; it strengthens and corrects both stomach and intestinal digestion, and is itself a digestive; tones the Liver banishes Malaria, cures Kidney and biadder affections, relieves Constipation, headache, piles, Neuralgia, palpitation.

NEW LIFE.

Possibly you do not realize, even at so and 60 years or over, that you are ageing; the decline has been so gradual that you do not notice until all at once a condition of partial sometimes complete impotence in will power, in nerve and vital force, is realized. Here is where Wells' New Tonic Treatment is supreme, at this important involving it is a REBLYFANDE. It Wells' New Tonic Treatment is supreme; at this important juncture it is a REJUVENATOR. It will tone you up; it REVIVES, starts up the powers yet within you. It restores the capacities and capabilities of vounger days to exceed any Treatment yet conceived of. It puts New Life in you. It lightens the spirits, brightens and strengthens the brain relieves from melancholy and gloomy forebodings. Its power to maintain and perpetuate the vigor of youth and middle age, in both men and women, into extreme old age, has been and is being amply demonstrated.

WOMEN, GIRLS.

For women at the change of life, or at painful periods, Wells' New Tonic Treatment is a stay and comfort beyond belief, relieving the dangerous

Fat or Thin People.

An abnormally rapacious appetite indicates a morbid condition of the digestive tract and needs correcting even more than lack of appetite. People are thin, or take on a bloated distressing fatness, and remain so, because of imperfect, feeble digestion, disturbed or incomplete assimilation; the digestive forces are slow, are not comilation; the digestive forces are slow, are not com-mensurate with the demands of, or the waste in the physical organization. Wells' New Tome Treatment—the sheet anchor of health—the se-cret of a long life—itself a digestive independ-ent of the stomach's digestive forces—is also an appetizer, a corrector of impaired digestion, constipation, torgid liver, and an invigorating tonic to weak feeble stomach digestion; it thus assures the happy health medium of not too fat

Apoplexy, Paralysis, Softening of the Brain, headache, neuralgia, La Grippe, deterioration of the mind. KIDNEY DISEASE, CANCER, TUMORS, ETC. Any food the stomach may not be able to digest, will be dissolved by the diseastly principles in Wells' New Tonic Treatment, so that a clean and perfect digestion may be secured at all times by using this Treatment. Skin Disease, kilves, pimples and blotches disappear under this Treatment. Abnormal fatuess is, equally with learness and emaciation, a sign of degeneration from impaired digestion, and predisposes to Consumption, affections of the bladder. Diabetes, Nervous Weakness, Bright's Disease, Impotence, Paralysis, and

DEATH.

It is better to correct and strengthen the digestive power than to be obliged to diet, to eat this or that only, or to live on signally prepared so-called foods. If the system is not maintained at a normal condition of flesh and fat, and kept constantly freed from calcareous and earthy deposits, and from effete matter by means of the proper digestion of an ample food supply, there must be emacration, a present or an early decline, or an unhealthy, flabby tatness; an inability to withstand exposure; liability to Kidney diseases and bladder affections, sensitive to change of seasons; proneness to Neuralgia Pain in the groin; liability to frequent Grip Bronchial attacks, or Pneumonia, and a liability to any disease flesh is heir to. A single package of Welis' New Tonic Treatment will remedy these conditions, or go so far to that end that permanent cure will be seen to be inevitable.

Regeneration.

Regeneration is not too strong a designation of the remarkable restorations to health, of physical, nervous and dyspeptic wrecks, by Wells' New Tonic Treatment, 17 there has been Wells' New Tonic Treatment. If there has been an undermining or over-taxing of the brain and nerve centres, if you lack in virile power, if debilitated by La Grippe, or if you lack in any way, the power of quick recuperation, don't fail to try this great Treatment. It prevents the pitiable condition of a senile old age. When the recuperative powers are waning. Wells' New Tonic Treatment is a food in that it supplies the essential elements of nutrition—the Phosphites, Iron, Lime, Potash, Soda, Manganese, etc. It is an exhibitant, a vitalizing brain and nerve tonic, an invigorant, and a general rejuvenator. Promptness, wide range of usefulness, the small amount of, and the short time it need be taken, are characteristic of this unprecedented New Treatment.

It is in \$1.00 packages at retail or wholesale. It is in \$1.00 packages at retail or wholesale Druggists, or they will get it for you, or it will be sent promptly to any address prepaid by ail on receipt of \$1.00. E. S. WELLS, Chemist, Jersey City, N. J.

Water Bugs, Roaches, Bed bugs, flies, ants, moths, rats, mice, sparrows jack rabbits, squirrels, 15c.

CLEARS OUT

Animal Heat.

Some of the first indications of beginning retrogression, in fact, of approaching dissolution, are cold extremities, or its opposite, rushes of blood to the head, frequent severe headaches and neuralgia, threatening congestion of the brain and Apoplexy, or deterioration of mind and possible paralytic premonitions. If you feel you are weakening or lacking in vitality, and animal heat; if tending toward a state of lost usefulness, use Wells' New Tonic Treatment. It will expel lurking disease germs; malarial taints; brighten your sluggish, worn out, unsupported brain, and freshen your haggard countenance. It will quicken and maintain energy, mental and nerve torge, and physical vigor, when despondency, melancholy and gloom will desert you.

Consumption.

That form of wasting debility, frequently taken for and often leading to Consumption; Bronchitis; Kidney Disease; Scrofulous Complaints and Catarrhal Throat Disease; are almost always due to lack of nourishment, due to an imperfect performance of the liver's work and a bad state of bowel and stomach digestion. Consumption of the lungs of the Nasal Caying Consumption of the lungs of the Nasal Caying Consumption of the lungs of the Nasal Caying Cay a bad state of bowel and stomach digestion, Consumption of the lungs, of the Nasal Cavistes (Catarrh), of the bronchial passages, or kidneys—Bright's Disease—(in most cases, the result of this continued wasting and consequent degeneration of the blood) make rapid inroads in low states of vitality, and soon the weaker organs, the lungs or kadneys, the bronchial tubes, or the Catarrhal Tracts break down and are consumed in the wreck.

Pulmonary Consumption.

In wasting diseases extra instrition, obtained without effort of digestion and without wear and waste of vital forces, is indispensable. Aside from tonic, exhilarating, curative, and alterative properties. Wells' New Tonic Treatment is a concentrated food, in that it supplies the essential elements of nurrition—the Phosphites, Lime, Iron, Marganese, Petash, Soda, etc. At the first indications of pulmonary consumption—in its earliest, incipient stage, Wells' New Tonic Treatment, it taken in time, should in every case, arrest it and restore the patient in the intermediate stages, it should greatly retard, if it does not in fact completely arrest the disease and prolong the life of the patient indefinitely; where the lungs are considerably, in fact largely consumed, it should retard the ravages of the disease, and prolong life, it may be for years. The building up, the alterative and the life sustaining power of Wells' New Tonic Treatment is marvelous.

Wasting Away.

If your frame is over large in proportion to the vital organs, you are liable to decline because of your inability to eat and digest food of a nourishing nature, sufficient to feed a physique out of proportion to the appetite and digestive power. Men of tall, lank build, long extremities, large feet and hands, unless they have a good appetite for staying, nutritious food, a strong stomach and vigorous digestion, are liable to early decline from inability to repair daily waste. For such persons Wells New Tonic Treatment is important, and indispensable. For those debilitated by consumption or any wasting disease, it is doing a great work, curing serious, extremely difficult cases that were seemingly beyond hope of recovery. Its staying, exhibitrating, bracing, building up, sustaining, strengthening and tonic properties are immeasurable.

Inherited Disease.

On account of its surprising efficacy and astonishing cures Wells' New Tonic Treatment has attracted wide-spread attention. When Catarrh, Consumption, Kidney or Liver Disease, any inherited taint or predisposition to weakness of any kind is known to exist, if due care is exercised long life may be reached. Well.' New Tonic Treatment is invaluable in building up and fortifying the system, not only against threatened but in actual conditions of Consumptive attentions. up and fortifying the system, not only against threatened, but in actual conditions of Consumption, Nasal Catarrh, Catarrhal Throat affections, Kidney and Liver Disease, etc. It stimulates the Liver, the Glands, the sercementory organs, the entire system, to a disease resisting, and health restoring condition. It cures nervous weakness, breaks up night sweats, banishes the hectic flush and the hacking cough of debility.

Catarrh.

Consumption, Cancer, Tumors, Kidney Com-

Neuralgia, La Grippe, Decline.

Neural jia and Decline go hand in hand. When the system is below a normal state of health, many are a prey to a form of neuralgia, excruciating and dangerous, in that, aside from the retroactive exhausting nature of from the retroactive exhausting nature of the pain, the heart is liable at any time to be attacked. Build yourself up. Nothing will so quickly and with such certainty restore good digestion, a bright, vigorous brain, and strong, steady nerves as Wells' New Tonic Treatment. As a restorative in the dangerous debility and heart weakness following La Grippe, it is prompt and remarkably effective.

Brain Force, Vital Power.

What is the value of a restoration of the vitality and nerve force of former days? of virile power, hardy, rugged health? for even an approximate renewal of the fire, vivacity and vigor of youth? If the brain is not continually reinforced by the Vital Powers you may not even perceive opportunities open to you that others, better supported, grasp through alertness, ambition and force. If the Vital Porces are not built up, you fail to reach the goal. Though you may have genuine, inherent ment, those wise enough to use the means at hand to increase recuperative power, reach the goal you fain would win: Wells' New Tonic Treatment is within your reach.

Vigor, Vivacity.

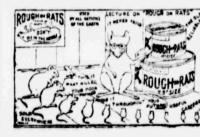

Mental strain or nervous excitement. La Grippe, dissipation, excesses, any overtaxing of the recuperative powers depresses vitality, weakens the appetite and enteroles digestion; the brain tires, the heart's force is weakened, vision impaired, the eyes lose their lustre, nerves are shattered and tremuleus, there is a twitching or numbress in the inuscles; nervousness of the limbs; threatened paralysis, mental apather distress in the head and small of the back, pulpitation; aversion to society; an impending collapse in so far as a vigorous aggressive lift is concerned. To prevent or remedy such conditions, all doubts as to the efficacy of Wells New Tonic Treatment will be dispelled by the use of a single package. use of a single package.

Getting Older.

At some age, all feel they are declining more or less in energy, force, strength and steadiness of nerve power. If at this point you begin the use of Wells' New Tonic Treatment, you will be more than gratified at its prompt action in putting you in vigorous condition, even to extreme old age. As we grow older the venstend to a bluish, shrivelled, hardened condition, the circulation is impeded and decline is rapid. This condition of things and a paralytic or senile tendency is corrected at once by Wells' New Tonic Treatment. It may safely be said in fact, that it completely restores the flagging powers of both men and women; that no such remedy as Wells' New Tonic Treatment, as a prompt and certain, renewing and vitalizing agent has ever been produced, and only a very few doses are necessary to prove the facts. It is in \$1 00 packages at retail or wholesale Druggists, or they will get it for you, or it will be sent promptly to any address prepaid by mail on receipt of \$1.00.

E. S. WELLS, Chemist, Jersey City, N. J. &

Headache, BILIOUSNESS, DYSPEPSIA, MALARIA, PILES, CONSTIPATION, PALPITATION, NEURALGIA, LA GRIPPE.

Nine of the most common ailments, and yet Nine of the most common allments, and vet no certain, safe, simple, convenient, permanent cure, until the introduction of Wells' New Tonic Treatment. On account of its peculiar efficacy and almost miraculous cures this New Treatment has attracted wide attention and great interest everywhere, thus proving what is possible in this age of marvelous achievement. Equipped with this New Treatment, it is safe to say that you are proof against any of the above affections and many other more serious complaints.

DISEASE GERMS. IMPORTANCE OF WELLS' NEW TONIC TREAT-

MENT. MENT.
The "germ" theory of disease is now an accepted fact, and, according to the degree of exposure, all flesh is more or less subject, at all times, to attacks of the Typhoid, Cholera, Scarlet Fever, Diphtheria, Malaria, Small Pox. Consumption or other microbes. Disease germs enter the system through the medium of food or water, by means of contact, or the air we breathe. Persons not in good health, those who are debilitated, nervous, dyscottic, bilious.

Haggard and Pale, are ready subjects of attack, and are less able to repel disease germs and still less capable of neutralizing and outliving the dangerous inroads of microbes. No doubt the best food and water in daily use is laden with millions of microbes, but happily the gastric juice of the stomach destroys them largely and thus immunity from their ravages is secured; but if digestion is feeble (deficiency of gastric juice) and there is a debilitated condition, here is a susceptible field, an inviting receptacle as it were, upon which disease germs readily fasten and rapidly thrive.

Epidemics, Contagion With the above facts in view, the value of Wells' New Tonic Treatment to every household and to every traveler, is apparent and beyond estimate. If at all times you keep vourself in condition with this New Treatment, and especially if during epidemics of any disease or in the presence of contagion, you promptly fortify yourself with this great Treatment, the danger of your becoming a victim would be greatly reduced, or altogether averted. Travelers, if supplied with Wells' New Tonic Treatment may with comparative safety visit or remain in Tropical or Arctic climes—in any climate, where subjected to extreme, protracted heat or cold, to dry or wet seasons, interior food and bad water, Epidemics or Contagion. By its wondrous tonic, exhilarating, alterative, strengthening, correcting and sustaining power, it decreases also the liability to

Cancer, Tumors,

Paralysis, Apoplexy, and many other dangerous conditions. The fluids of the body are made acrid and poisonous through incomplete or imperfect stomach and intestinal digestion; the blood is weakened in its proper elements, and loaded with substances foreign to it that are disease engendering—a fruiful cause of Cancer, La Grippe, Kidney and Bladder affections, Neuralgia, palpitation, and other aliments. If there is Constipation, coated tongue, yellowish tinge to white of the eyes, a clav-like, or a dark, muggy, or greasy skin, biliousness, bad breath, flatulence and belching of wind, or if there is a heavy weight or lump in the throat or chest after eating, or if there are colicky pains or an a heavy weight of there are colicky pains of an acrid, inflamed, tender, irritated, distressed con-dition of the Stomach, and especially if there is a dead, dry, dormant, inactive condition of the Stomach and the intestinal tract,

Diabetes, Paralysis or Nerve Palsy

or remain and give to the Stomach the feeling as though it were a soured cesspool, conditions are present most dangerous to health; the products of such digestion are worse than useless, are harmful, producing Congestion, Inflammation, Malaria, Headache, Bilous Diarrhea, La Grippe, palpitation, disease or disorder in some form. Piles, Fever, Eczema Rheumatism, Gout, bloating, Diabetes, Dropsy, Cancer, Tumors, Pimples, Hives, Blotches, Skin Diseases, Paresis, Neuralgia, Kidney and Bladder disease, are trequent results of such digestion; Wells' New Tonic Treatment will cure these conditions as if by magic—in a few doses.

Robust.

If below par, Wells' New Tonic Treatment will surprise you, in that it will please and help you even beyond your most sanguine hopes and expectations. Its action is pronounced and noticeable from the first dose; it will quickly lift you up, strengthen your weary brain and overtaxed nerves. It is a brain and nerve food, a prompt invigorant, almost a miraculous rejuvenator and anenduring Tonic. If you are going back in any way, try it. A few doses will demonstrate to you that it is what is claimed for it, and will work wonders in your case. Words full to adequately describe its most remarkable virtues. Its uplifting, renewing, exhilarating, restorative and tonic effects, must be feit to be fully appreciated.

Youth.

It is thought an approach to perennial youth can be attained, it the digrestive forces be maintained so that excesses of calcareous, earthy and effete matter be eliminated from the system. You are less nimble, as you age, because of the deposit of foreign matter in the tissues of the nerves and muscles. The flow of the blood and fluids of the bedy are retarded as you age, by the hardening and stiffening of the arteries, ducts and verins, from the same cause. One of the effects of Weils' New Tonic Treatment isto dissolve these substances. Aside from special and general tonic properties, it dissolves the unused, superfluous by-products of digestion, the calcareous, earthy matter, and expels disease engendering liquids that do not pass off and out of the system, but remain to clog up the animal economy and hasten decline, paralysis, impotence and

Degeneration.

Dissipation, anxiety, worry, care, sleeplessness, La Grippe, and wasting drains disarrange the digestive and recuperative functions, deplete the constitution, conduce to paralysis, impotence and a senile condition. A single package of Wells' New Tome Treatment will prevent and remedy such conditions, and prove to you that you can attain and maintain beath, vigor and usefulness into extreme old age. In cases where physical health seems good and muscle power ample, yet nervous weakness and mental indifference prevails, and you feel you are not yourself. It is use is indicated. For men and women beyond middle age who need a restorative it is highly commended. It lessens the task upon a feeble digestive force by supplying direct the essential elements of digestion—the Phosphites, Lime, Soda, Potash, Manganese, Iron, etc.

Old Age.

Wells' New Tonic Treatment is of intense interest and importance to all mankind in that it possesses the power of perpetuating youth, by means of the solvent properties above mentioned; it does certainly retard the tendency to ageing and a senile condition; and perceptibly renews and keeps alive the vigor, impulses, and desires of younger days. It is believed in fact, that the average life may be prolonged ay years or more by its timely and judicious use. As a cure for Debility, Mental Exhaustion, Nervous Prostration, Indigestion, Dyspepsia. Torpid Liver, Impotence, Constipation, Consumption, Kidney and Bjadder diseases, Neuralgia, etc., it is a grand achievement.

It is in \$1000 packages at retail or wholesale It is in \$1.00 packages at retail or wholesale Druggists, or they will get it for you, or it will be sent promptly to any address prepaid by mail on receipt of \$1.00.

COPYRIGHTED.

Long Life. In order that you may be fully informed as to what is now possible in this age of grand accomplishment, your attention is called to that which is little less than marvelous, Wells New Tonic Treatment.

A vigorous hear: with a perfect and a full circulation of blood that is pure as to the elements which are foreign to it, ample and well balanced as to the life sustaining elements it should contain—this is the secret not only of a long life, but of a vigorous manhood and a thrifty womanhood. Strengthen the heart, tone up the nerves, fortify direction, regulate the liver, correct mal-assimilation of food by use of Wells New Tonic Treatment, and you have the secret.

Going Back.

To maintain health and prolong life is to supply waste (for which rapid and continuous recuperation is necessary), and this is secured only by maintaining a proper condition and action of the liver, and a perfect stomach and intestinal digestion. To reach this end no remedy in any way appreaches Wells' New Tonic Treatment; aside from the digestive principles it contains—it will put the liver and Nature's digestive functions in condition; benish Malaria; prevent a typhoid condition; cure headache; constipation; biliousness; piles; neurnigia; nervous weakness; palpitation; la grippe, etc. It will lighten your spirits; renew vitality tone up the system.

Heart Failure.

Heart failure has no place if health and strength be kept at vigor point by using Wells' New Tonic Treatment. It is tonic to a heart weakened or a system debilitated by la grippe. In any case of prostration or exhaustion from which it seems difficult to rally. Wells' New Tonic Treatment is a sure and safe resort. Little or no appetite, and weak, feeble, imperfect or disturbed digestion induces a slow, fifth or weak or culation, (with possible intermittent rushes of blood to the heads, headaches, neuralgia, cold extremities, blood poor in lifegiving elements, tendency to Diabetes, to Kidney Disease, a weak heart and a liability to heart tailure. Wells' New Tonic Treatment cures Malaria, brightens the brain, steadies the nerves, regulates the liver, giving sest to the appetite, strength to the stomach, power to nerves, regulates the liver, giving sest to the appetite, strength to the stomach, power to digestion, force to the circulation.

Physical Development.

Physical Development.

The ignoble, almost pitiable physical development (especially noticeable among men) is due in some cases to inheritance, but is more frequently the result of poor nutrition. The appetite and digestion may be fairly good, but if the food seems to do little more than barely keep you alive, assimilation is defective. Full and harmonious development of flesh and muscles cannot be had not maintained, in the absence of an appetite and a digestion in proportion to the physique; but fully as important is a rapid and a correct assimilation—that is a prompt selection and appropriation by the system, of the elements in the digested food necessary to the abundant nutrition and ample neurishment of the animal economy. Wells New Tonic Treatment, as the modern appetizer, digester and promoter of assimilation, is alone and supreme. It will supply Phosphites, Lime, Soda, Petash, Manganese and Iron; elements always lacking in an ill supported system. It will enable you to sustain animal heat, a forceful manhood, a vivacious womanhood, a well developed physique, ample flesh and muscle. A vigorous nerve force and procreative ability, and at same time prevent corpulency, tendency to obesity or flabby fatness. and at same time prevent corpulency, ten-dency to obesity or flabby fatness.

Stamina, Vitality.

It frequently happens that, though the appetite, digestion and general health seem fairly good, there exists a dormant listlessness, a lack of virile power, of vivacity and vigor, an indifference to, or lack of interest in the things that were once a delight; and with many when brain and will power are also good, there is still an indescribable sense of insufficiency. These conditions indicate an inherent weakness, or slow recuperative power, or may be due to an over-consumption of nerve force, caused by overwork. La Grippe, irregular habits, indiscretions or excesses of some kind, which foreshadow a premature decline. Wells New Tonic Treatment cures Biliousness, kills Maiaria, prevents Typhoid; restores the depleted exhausted nerve centres; renews energy; imparting steadiness to shattered nerves, stability and endurance to the entire constitution.

Heart Palpitation.

In most cases Paipitation of the Heart and bad blood is the result of poor digestion. If the heart is repeatedly agitated by indigestion or weakened by an enfechled condition, and if at every pulsation of the heart unscund blood is carried to the remotest ends of circulation, can health, good condition and long lite be expected? How important then that the blood be sound as to its constituent eloments, and free from substances foreign to it which are sure sound as to its constituent elements, and free from substances foreign to it which are sure to enter the circulation if left over from imperfect digestion. Pure, healthy blood can be had only by maintaining proper action of the liver, a faultless digestion and a perfect assimilation of food. Happily the means is now at hand in Wells' New Tonic Treatment to secure this end.

Blood Danger.

Weils' New Tonic Treatment is superseding old ideas in the treatment of blood impurities; by its use hives, pimples, blotches and skin diseases will, as if by magic, disappear. To secure a continuous, ample supply of properly constituted blood, to maintain flesh, nerve force, and animal heat, vitality and brain vigor. force, and animal heat, vitality and brain vigor, one must eat and properly digest a reasonable amount of food daily. Wells' New Tonic Treatment will strengthen digestion and equalize the circulation. It is unprecedented in the remarkable benefits and almost miraculous cures it is performing. When your blood is bad, (impure, too hick or too thin), the circulation feeble, a you feel brain weary, wretched, miscrable and downcast, sick and seemingly beyond heip and hope of recovery, remember what is claimed for Wells' New Tonic Treatment, and test its merits.

Dangers of Travel, Climatic Changes, Tropical Climes.

Travelers who change from one climate to another, are subjected to great risks. In many towns and cities, in fact at farm houses, water and drainage is poor. Bacteria-Germs in some form are ever present. Many of our fashionable summer and winter resorts, are hot beds of "typhod." If persons who travel from place to place, provide themselves with "Wells" New Tonic Treatment," and use it as directed they can travel with safety in any country, at any season, even in the tropics, with safety. Aside from keeping the Liver, Stomach and Bowels in good condition, by its general tonic and special nerve invigorating power, it maintains the system in a condition enabling it to throw off disease, and still better each of the three numbers that go to make up the Treatment, contain Antiseptics and Germicides which should destroy disease germs that may get into the system through impure water, food or foul air.

Kidney and Bladder Disease, Gout and Rheumatism

are due to, and are preceded by, improper conduct of the liver and faulty digestion, and a consequent wrong distribution of the products of such digestion; hence there are gall stones in the bile ducts, gravel, brick dust, phosphatic, lime, calcareous, earthy, and other deposits in the urine, stone in the bladder, with inflamed conditions of the tissues in rheumatism, and phosphatic, chalky deposits in gout; bloated conditions wherein acrid, poisonous liquids, the result of bad digestion, are pent up in the tissues, and if not expelled, cause misery, distress, Palpitation, Hysteries, Sexual Weakness, Apoplexy, and predispose to Cancer, Timors, paralysis, etc. Wells' New Tonic Treatment will prevent and remedy these annoying, sometimes painful, and always dangerous conditions.

In \$n.op package at retail or wholesale Druggists, or they will get it for you; or it will be sent promptly to any address by mail prepaid, on receipt of \$n.oo.
